Pinnacle Design/Build Completes Retaining Walls at Nashville West Retail Center in Nashville, TN

CUMMING, GEORGIA – Pinnacle Design/Build Group, Inc. recently completed the retaining walls on the site development package at the Nashville West Retail Center for the Parkes Companies of Franklin, TN. Pinnacle Design/Build Group, Inc. worked with the project's co-developers, Parkes Companies, and the project's civil engineer, Littlejohn Engineering Associates, to value engineers the site's retaining walls. The project team selected vegetated MSE retaining walls along the projects stream line property boundary. The vegetated retaining wall option provided the necessary structural support while meeting the environmental concerns of the local regulators.

Pinnacle Design/Build Group, Inc. (www.pinnacledesignbuild.com) is an innovative geotechnical subcontractor specializing in the design and construction of retaining wall and erosion control systems. As one of the leading providers of these services in the United States, we differentiate ourselves from others in the marketplace by providing these solutions as a fully integrated package of engineering design, construction, and quality manufactured products. This turn-key approach delivers single source accountability, enhanced cost efficiency, shortened project duration, and overall peace of mind.
