**Pinnacle Design/Build Awarded Completes Retaining Wall at Walgreen's in Conroe, TX**

CUMMING, GEORGIA – Pinnacle Design/Build Group, Inc. completed retaining wall construction at the new Walgreen's located in Conroe, TX. Cunningham-Walters, LLC, the developer of the new store site, subcontracted with Pinnacle Design/Build Group, Inc. for the engineering design and construction of a vegetated MSE retaining wall. The retaining wall supports the parking lot for the retail site. The vegetated MSE retaining wall is a low-cost alternative to conventional concrete retaining walls. They provide a savings to the developer while provided a "green" environmental pleasing structure.

Pinnacle Design/Build Group, Inc. ([www.pinnacledesignbuild.com](http://www.pinnacledesignbuild.com)) is an innovative geotechnical subcontractor specializing in the design and construction of retaining wall and erosion control systems. As one of the leading providers of these services in the United States, we differentiate ourselves from others in the marketplace by providing these solutions as a fully integrated package of engineering design, construction, and quality manufactured products. This turn-key approach delivers single source accountability, enhanced cost efficiency, shortened project duration, and overall peace of mind.
