

## RETAINING WALL REPAIR

Retreat at Oxford

*Oxford, MS*

### PROJECT FACTS

Wall Area = 12,620 SF  
Max Ht. = 15 FT  
Completed 2013

### CHALLENGE

The collegiate housing developer needed a new retaining wall to support the housing structures of a new collegiate housing development because of the failure of an existing retaining wall. Pinnacle Design/Build needed to construct a brand new retaining wall without disturbing the existing housing development.

### SOLUTION

Pinnacle Design/Build's experienced construction crews and management team worked with the developer to construct a 15 foot tall, 12,620 square foot MSE segmental retaining wall and vegetated MSE WWF retaining wall to support the housing development.

### VALUE

Pinnacle Design/Build's construction crew provided the skills necessary to take on the challenges presented at the site.
